Product Description	<p>P-Screen™ urinal screens are a 60 day fragrance solution for most urinal shapes and sizes. P-Screen™ is an effective solution that reduces bad smells for up to 60 days with a deep bubble and bristle design that prevents splash back and drain blockages.</p> <p>The World's first triple action screen, offering both dual fragrance and enzyme protection. The active central core in the urinal screen is not only designed to reduce bacteria, but also provides a secondary fragrance in the screen. This combats fragrance fatigue, which is a common experience of losing sensitivity to smells from over exposure. Its large surface area means it can also provide extra fragrance delivery.</p> <p>The P-Screen™ urinal screens incorporate an active central core within the screen, containing naturally occurring bacteria which produce enzymes to degrade organic matter, eliminating bad smells. This also reduces organic scale build-up by ensuring that uric salt is made more soluble, broken down and therefore made easier to flush away.</p>
