

KAY® Waterless Urinal Cleaner

CONCENTRATED SANITARY CLEANER

KAY® Waterless Urinal Cleaner is a unique biologically active formulation containing specialized, safe-to-use bacterial strains and biodegradable cleaners.

KAY® Waterless Urinal Cleaner is specially designed for multi-surface cleaning and providing odour control for waterless urinals.

- Bacteria spores digest uric acid and remove odours at source
- Degrade and remove organics from surfaces
- Digest grease, oil, fat, starch and other solid organic waste materials
- Keep drains, traps and pipelines clean and clear
- Is completely biodegradable and thereby minimizes any environmental impact
- Elimination of blockages in drainage and therefore saving downtime and maintenance cost
- Unique liquid biological formulation replaces environmentally hazardous cleaners.

USE INSTRUCTIONS

1. Spray KAY® Waterless Urinal Cleaner into the urinal and wipe the basin and the black gasket with a clean paper towel.
2. Spray the cleaner on the exterior surface of the urinal and clean all areas with a clean paper towel. Do not forget to clean the sensor, if available.
3. Spray KAY® Waterless Urinal Cleaner once more on the inner section of the urinal.
4. Allow surface to air dry.

SAFETY

For professional use only!

Do not mix with any other product!
Dispose packaging only if emptied completely and closed. Product residues: see Safety Data Sheet.

For further information and safety instructions see product label and safety data sheet.
