

TECHNICAL DATA SHEET

TAMPONS BELLA TAMPO

I. DESCRIPTION

Hygienical tampons Bella Tampo without applicator are made of viscose ribbon wrapped by thermoplastic nonwoven. Viscose ribbon is connected with coloured cord allowing removal tampon after use. The whole is protected by coloured PP film. PP film has perforation for easy twist tampon opening.

II. RAW MATERIALS

Viscose ribbon (100%), nonwoven, coloured cord, PP film with coloured printing.

III. DIMENSIONS

Size	Lenght [mm]	Outer diameter [mm]	Quantity of grooves in tampon [pcs]
Mini	45+/- 1	12+/- 0,5	8
Regular	50+/- 1	12+/- 0,5	8
Super	50+/- 1	14+/- 0,5	8
Super Plus	50+/- 1	16+/- 0,5	8

IV. PCHYSICO – CHEMICAL PROPERTIES

Size	Weight [g]	Water absorption [g] No less than
Mini	1,9+/- 0,1	15
Regular	2,0+/- 0,1	20
Super	3,0+/- 0,2	25
Super Plus	3,3+/- 0,2	30

V. LOGISTICS

Size	Individual packaging [pcs]	Quantity of individual packages per carton case	Quantity of carton cases per palette	Transport packaging
Mini (a'8)	Carton boxes	40	234	carton case
Mini (a'16)	Carton boxes	20	234	carton case
Regular (a'8)	Carton boxes	40	234	carton case
Regular (a'16)	Carton boxes	20	234	carton case
Super (a'8)	Carton boxes	40	189	carton case
Super (a'16)	Carton boxes	20	189	carton case
Super Plus (a'8)	Carton boxes	40	153	carton case
Super Plus (a'16)	Carton boxes	20	153	carton case

EURO Pallet with product is wrapped around with a stretch film and protection bottom and top by protection film

VI. STORAGE CONDITIONS

Hygienic tampons should be stored in dry and airy room, with temperature between 5°C and 35°C and humidity between 25% 75% in original packaging. Packaging must be unopened, wrapping with stretch film to avoid dust, impurities and unfamiliar odors.

VII. OTHERS

Validity: 60 months.
